

DECK FLECKS®

DECK FLECKS®

State of the art UV and slip resistant.

Why settle for a boring surface when you can design beautiful and enhanced entertainment decks and surfacing?

Deck Flecks® is a state of the art UV resistant surface perfect for re-surfacing new, old or cracked concrete substrates. Our unique patented Thermo-Plastic Rubber (TPR) granules combined with our two-part proprietary urethane binder makes an excellent non-skid, decorative surface which will not fade or crack in any temperatures.

Our Deck Flecks® system comes in 15 colors and may be blended to create unlimited patterns and designs. Deck Flecks® provides an aesthetically pleasing surface for all pool decks, patios, and walkways providing a long-term solution to all your surfacing needs.
